

PERSONNEL

We are training all the people who work with us so that their and your health is guaranteed. The staff will always be available for anything and will ensure that security measures are respected.

All the staff of Hotel La Bussola have received detailed guidelines and specific cleaning, hygiene and sanitization measures have been adopted throughout our structure, with the aim of working safely and providing safe and clean environments for our guests and all staff. All operators will follow the rules of personal hygiene and will always wear safety devices (gloves and masks). All back house areas will be equipped with sanitizing gel.

RECEPTION AND RECEPTION

We will welcome you as always with a smile and the typical Calabrian friendliness. We will simply do it safely.

Upon arrival, you can enjoy our welcome drink in total safety, on multiple locations. It will be possible to check in online from home before arrival, thus reducing waiting times at the reception.

When the room is ready you will be called on your cell phone, so you don't have to wait in the Hall and in the meantime you can go to the beach or take a tour of the hotel. There will be hand sanitizer gel dispensers in the Hall.

CLEANING THE ROOMS "Maniacal" cleaning has always been one of our strengths. This year more than ever we will be impeccable in ensuring the sanitation of the rooms with special products approved by the Ministry of Health. Cleaning the room will have two different procedures: Room stopped (during your stay): the cleaning procedure will be the standard one foreseen by the company protocol; Room on departure: the room will be sanitized with adequate and certified products. In both cases, cleaning will concern all surfaces in contact with guests. Guests' PPE will be disposed of separately. All surfaces will be cleaned with specific products and with single use material or treated with 2% sodium hypochlorite. All amenities, where present, will be cleaned periodically and, in case of room on departure, sanitized.

RESTAURANT

From breakfast to dinner, in our restaurant we pamper you with the most suitable and reserved table service.

You will still be able to savor everything you like! WE will undertake to use gloves and masks, YOU will be able to eat in total tranquility.

All our areas dedicated to catering, whether internal or external, offer ample space to correctly space the tables between them.

The tables will be assigned and distributed throughout the room at the established distances. The distance between people according to the regulations will be guaranteed.

The tablecloth will be replaced at each guest change. Between one shift and the next, all areas of the restaurant, including tables and chairs, will be thoroughly sanitized.

BREAKFAST

We decided not to give up our beautiful Breakfast Buffet by transforming our self-service buffet service into SERVED BUFFET.

A rich sweet and savory breakfast where you will find a protected display of freshly baked cakes of the day, brioches, jams, cold cuts and so you can choose what you prefer, our staff will take care of giving you what you want directly served at the

table

We guarantee the adequate spacing of the tables and compliance with sanitary regulations.

All spaces in the breakfast room, tables, chairs and drink dispensers will undergo sanitation and sanitization procedures at the end of each service.

CAFE

At the entrance of the Bar stands will be placed with sanitizer and disposable gloves
The entrance to the closed air of the bar will be contingent and strips will be placed on the ground to keep people inside the bar.

In the outdoor area and in the garden, the tables will be positioned at the established distances.

BEACH

You will have even more space for greater comfort and privacy.

Our partner beach at the Grotticelle beach guarantees the distancing between umbrellas and sunbeds required by law (10 m² for each umbrella) with a sanitization after each use.

To guarantee the umbrella and sunbed service, we recommend advance booking, preferably already when booking your stay. In this way, the umbrella at our partner beach will remain reserved for you for the entire period booked.

POOL

Given that our swimming pool is to be considered safe, as the water contains high quantities of chlorine, capable of neutralizing bacteria and viruses, measures have been taken to ensure social distancing and sanitization of the furnishings.

The entrance to the swimming pool areas will be allowed up to the number of possible capacities (42 people)

The access area will be separated from the exit area of the swimming pool

The sunbeds and umbrellas will be spaced according to the law. All sunbeds, umbrellas and furnishings in general will be sanitized at the change of each customer.

The hotel's beach towels will be washed and sanitized through the use of specific disinfectants.
